with the advent of the world wide the global internet has rapidly become the dominant type of computer network it now enables people around the world to use the for e commerce and interactive entertainment applications in addition to e mail and ip telephony as a result the study of computer networking is now synonymous with the study of the internet and its applications the 5th edition of this highly successful text has been completely revised to focus entirely on the internet and so avoids the necessity of describing protocols and architectures that are no longer relevant as many internet applications now involve multiple data types text images speech audio and video the book explains in detail how they are represented a number of different access networks are now used to gain access to the global internet separate chapters illustrate how each type of access network operates and this is followed by a detailed account of the architecture and protocols of the internet itself and the operation of the major application protocols this body of knowledge is made accessible by extensive use of illustrations and worked examples that make complex systems more understandable at first glance this makes the book ideal for self study or classroom use for students in computer science or engineering as well as being a comprehensive reference for practitioners who require a definitive guide to networking

colonialism has three foundational concerns violence territory and population control all of which rest on racialist discourse and practice placing the zionist project in israel palestine within the context of settler colonialism reveals strategies and goals behind the region s rules of governance that have included violence repressive state laws and racialized forms of surveillance in israel s colonial project in palestine brutal pursuit elia zureik revisits and reworks fundamental ideas that informed his first work on colonialism and palestine three decades ago focusing on the means of control that are at the centre of israel s actions toward palestine this book applies michel foucault s work on biopolitics to colonialism and to the situation in israel palestine in particular it reveals how racism plays a central role in colonialism and biopolitics and how surveillance in all its forms becomes the indispensable tool of governance it goes on to analyse territoriality in light of biopolitics with the dispossession of indigenous people and population transfer advancing the state s agenda and justified as in the interests of national security

the book incorporates sociological historical and postcolonial studies into an informed and original examination of the zionist project in palestine from the establishment of israel through to the actions and decisions of the present day israeli government providing new perspectives on settler colonialism informed by foucault s theory and with particular focus on the role played by state surveillance in controlling the palestinian population this book is a valuable resource for students and scholars interested in the arab israeli conflict and colonialism
